

ORNATA

MARTYN

= GUTTATA

9

*Terebra ornata* Martyn, described as *Buccinum ornatum* Martyn (Univ. Conch. 1786, pl. 92; Chenu, Bib. Conch., 1845, 1st ser. vol. 2, pl. 33, fig. 1), is the same as the oriental *Terebra oculata* Lam. (Anim. s. Vert. 1844, vol. X, p. 242, and Tryon, Man. Conch. vol. VII, p. 10, pl. 2, fig. 20).

This does not invalidate the use of *Myurellina ornata* Gray described as *Terebra ornata* Gray, in the Proceedings of the Zoological Society of London, 1834, p. 62. VANATTA 1925 p. 425
