= AREOLATA

Callichloros (*Terebra muscaria*, var.), Tapparone-Canefri.
Ann. Mus. Civ. Genoa, viii, 326, 9

Mr. Tapparone-Canefri's variety *callichloros* is founded on a narrow, brightly colored specimen figured by Quoy in the Voy. Astrolabe; there is no good reason for giving it a name.

= MUSCARIA.

var. of MUSCARIA Terebra sp?
