LUTESCENS  
SMITH 1873  
(= PUNCTICULATA)

<sup>97</sup>  
*T. lutescens* Smith  
= *cancellata*

TRYON 1885

97. *Terebra lutescens*, Smith (= *cancellata*). *Thes. Conch.*, f. 75.  
*Lutescens* (*Terebra*), E. A. Smith. *Ann. Mag.*, xi, 1873, p. 263. = *T. cancellata*, Quoy, . 6/97. . . . . 22

*Terebra flava*, Gray. p. 263  
The specimen from which the figure of this species in the 'Thesaurus Conchyl.' pl. xlv. fig. 75 was taken is in the Cumingian collection. On comparing it with the type of *flava* in the British Museum, it proves to be a very distinct shell; and I have therefore applied to it the name *lutescens*.
